

THERE'S NOTHING  
MORE INVITING THAN  
A COMPHY BED.

Once your clients or guests have experienced Comphy, they're left wanting more. In fact, that's how these bed linens came into being—it was due to the overwhelming demand from spa clients who wanted them for their home. As with our spa linens, the high-performance microfiber is durable, sustainable and incredibly efficient. Plus, research has shown that Comphy sheets promote a better night's sleep. This is especially important to parents who have discovered our new Comphy Baby line! To complete the look of a Comphy bed, we also offer duvets, pillow shams, blankets and throws. There is one downside to Comphy Home linens, though. They're known to become addictive. You may want to warn your customers...

## COMPHY WAS DEVELOPED FOR SPA, DESIGNED FOR AHH.

Luxury. Quality. Durability. Service.

We are proud to be the leading provider of linens to the spa world, and now the benefits of our luxurious fabrics

are available for your home. Comphy products offer the best in durability, sustainability, design and quality. In addition, Comphy is known for excellent customized service. Most importantly, Comphy linens live up to their name. The indescribably soft feel of the high-performance, superior microfiber is comparable to 600 thread count sheets. You have to feel it to believe it!

## A COMMITMENT TO INNOVATION.

Comphy linens took a lot of passion and hard work to develop. Founder Mia Richardson, a spa director at the time, made it her life's mission to develop the most innovative luxury linens imaginable for the spa industry, and the research and development took years of trial and error. Thankfully, success was achieved. We are committed to always setting the bar higher for excellence. While others imitate, we innovate.

### The Comphy Guarantee

Our Guarantee; provided the sheets are laundered in accordance with our recommended laundry instructions and are used for the manner intended, we will, at our option, repair or replace any sheet that fails to be serviceable for 300 washes. If we replace the sheet, we will pro-rate the actual service (washes) life compared to 300 washes. For example, if the sheet becomes unserviceable at 150 washes, and we elect to replace the sheet, we will issue a credit, but not a cash refund, equal to 50% of the purchase price.

### Sleep better on the linens of your dreams

We engaged a research firm to study the sleep habits and patterns of test participants, and results show people sleep two hours longer, fall asleep faster and wake up less frequently when sleeping on Comphy sheets. We spend a third of our lives in bed—so spend it well.

## OUR GREEN STORY

Navigating the world of sustainable linens can be as multi-layered as a fully-dressed bed. There are many factors

to consider when you're trying to make the smarter choice. At Comphy, not only do we understand this, we've made it a priority in everything we do.

### Eco-friendly reasons to choose Comphy:

**Comphy linens use less energy** than any alternative. They're lighter than cotton, therefore they dry faster.

**Comphy linens are 100% recyclable.**

**Comphy linens last 2-3 times longer** than a standard cotton sheet. Replacing your sheets less frequently significantly adds to sustainability.

**Comphy linens are wrinkle free.** You'll use less energy from pressing equipment.

## SHEET SETS
